Remembering the past can provide deep satisfaction and increase our understanding of the world around us.

This resource has been put together to provide a tool to help facilitate **Spiritual Reminiscence**, an area often neglected in older people's care, particularly if they are in care or have some form of Dementia.

This pack gives lots of practical ideas to help to put together a personal reminiscence box for a person with dementia along with ways of reminiscing with them. It also includes a CD of some of the most memorable hymns sung simply to encourage participation.

This resource is produced by the Marriage and Family Life Commission of the Diocese of Wrexham.
